Lottery.com Announces Strong Third Quarter Results and Year-to-Date Revenue Increase of \$42.8 Million Over Prior-Year Period

Third quarter 2021 revenue of \$32.2 million and net income of \$11.2 million

Strong growth in user transaction profitability

AUSTIN, Texas, November 15, 2021 -- (GLOBE NEWSWIRE) -- Lottery.com Inc. (Nasdaq: LTRY, LTRYW) ("Lottery.com" or the "Company"), a leading technology company that is transforming how, where and when lottery is played, reported financial results for the third quarter ended September 30, 2021. These results were achieved prior to the closing of the Company's business combination with Trident Acquisitions Corp. on October 29, 2021. The Company's unaudited financial statements for the third quarter of 2021 and other information have been filed in a Current Report on Form 8-K/A today with the U.S. Securities and Exchange Commission ("SEC").

Tony DiMatteo, Lottery.com Co-Founder and CEO, commented, "We are proud of the strong revenue and profitability growth we achieved in the third quarter. While we were working toward the completion of our business combination, we acted decisively to advance our plans for our global affiliate program and monetize one of our assets by leveraging a B2B partner relationship. The start of this program provided increased revenue in the third quarter and is an essential building block of our B2B2C strategy, which we expect will lead to an increased user base and additional revenue from those end users going forward. Additionally, the implementation of a dynamic pricing model and improvements to our app, such as push notifications, contributed to strong growth in gross profit per transaction compared to the prior year period."

Mr. DiMatteo continued, "Now that we have successfully completed our business combination, we are focused on utilizing the proceeds we realized from the transaction, along with our third quarter profits, to accelerate our targeted user marketing campaigns, enter new markets, expand our product offerings, and execute strategic and synergistic acquisitions. With our low customer acquisition costs, large addressable markets and leading brands, we look forward to realizing the profitable growth opportunities before us."

Third quarter 2021 revenue was \$32.2 million, an increase of \$30.6 million from the third quarter of 2020. The growth was driven by the global affiliate marketing program.

Third quarter 2021 gross profit was \$20.3 million, an increase of \$19.4 million from the third quarter of 2020. The increase was driven by the global affiliate marketing program as well as improved user profitability.

Third quarter 2021 gross profit per transaction was \$1.69, or a \$0.76 increase from the third quarter of 2020. The increase was driven by the implementation of a dynamic pricing model and improvements made to the Company's platform, including push notifications, which contributed to higher tickets sold per transaction and higher revenue per transaction.

Third quarter 2021 net income was \$11.2 million, compared to a net loss of \$1.2 million in the third quarter of 2020. The improvement was driven by the increase in gross profit partially offset by expenses associated with the business combination.

Outlook and Update Following Business Combination

The Company expects to meet or exceed its previous guidance of \$71 million for full year 2021 revenue.

On October 29, 2021, the Company successfully completed its business combination with Trident Acquisitions Corp. As a result of the transaction, Lottery.com received \$42.8 million in net proceeds and converted \$60 million of debt and accrued interest into equity. Following the completion of the business combination, the Company's top strategic priorities include:

- Continuing development of Project Nexus' blockchain-based gaming platform and launch of its first proprietary lottery game in 2022;
- Initiating new targeted marketing campaigns to broaden its B2C user base;
